Central Intelligence Agency

Washington, D.C. 20505

12 July 2013

Mr. Samer Istanbouli (b)(6)

Reference: F-2013-01997

Dear Mr. Istanbouli:

This is a final response to your 21 June 2013 Freedom of Information Act (FOIA) request, received in the office of the Information and Privacy Coordinator on 24 June 2013, for:

> "1. Any records of the visit of Sameera Moussa in 1952 to the Nuclear research facilities in California as well as if there is a death report after her assassination speculated to be by the Mossad.
> 2. The records on Dr. Ali Mustafa Mosharafa and his works, but if his books and papers can not be given out, why?
> 3. The record of what did the United States of America do when the Lavon Affair was exposed in Egypt.
> 4. What records does the CIA have on Israel's secret nuclear facility and the visit to Israel when America went to inspect a nuclear facility in the 1950's-1960's?"

We have assigned your request the reference number above. Please use this number when corresponding so that we can identify it easily.

We cannot accept your FOIA request in its current form because it would require the Agency to perform an unreasonably burdensome search. The FOIA requires requesters to "reasonably describe" the information they seek so that professional employees familiar with the subject matter can locate responsive information with a reasonable amount of effort. Commonly this equates to a requirement that the documents must be locatable through the indexing of our various systems. Extremely broad or vague requests or requests requiring research do not satisfy this requirement. Further, under the provisions of the FOIA, federal agencies are not required to answer questions posed as FOIA requests.

Sincerely,

Michele Meeks
Information and Privacy Coordinator
